**Jill**

You're really into this, aren't you? The whole thing...not just the part where you get to call yourself Dr. Scott. You're enjoying practicing medicine.

**Greg**

I am. Somewhere along the way I started to love it. Especially taking care of kids. In fact, that's what I want to do.

**Jill**

Pediatrics? Wow. I'm surprised. It seems so hard.

**Greg**

And you figured a slacker like me would find some kind of easy specialty?

**Jill**

No. I didn't say that. It's just that it must be so sad, seeing little kids suffer...

**Greg**

But that's what's so great. Doctors can do something about suffering...most of the time.

**Jill**

Yeah, most of the time. But what about the other times?
